Art Unit: 2652

This application is a CON of 09/306,572 (now USP 6,690,638) and claims 6-10 are now pending. *It is noted that the specification should be amended appropriately to reflect this information.

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/306,572, filed on 5/6/99. ***Information Disclosure Statement***

2. The information disclosure statement filed 9/11/03 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Specification

3. The abstract of the disclosure is objected to because the language is not directed to the newly presented claims. Correction is required. See MPEP § 608.01(b).

Drawings

4. Figures 9 & 10 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

5. The drawings are objected to because appropriate labeling consistent with parent application 09/306,572 (now USP 6,690,638) should be made to the instant figures.

Art Unit: 2652

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 6-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 recites, “wherein the mass of the sub-frame is $1/10 - 1/3$ of the mass of the main frame”. From this language, it is unclear as to what encompasses the weight(s) of the

Art Unit: 2652

sub frame and main frame, since the specification (at page 8, lines 13-18) sets forth that the weight includes all mounted members, however, the claim(s) are absent this critical feature(s).

From this, the metes and bounds of the claim(s) cannot be readily ascertained at this time.

Allowable Subject Matter

8. Claims 6-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

*Complete reasons for allowance will be written upon allowance.
